FUJI XEROX
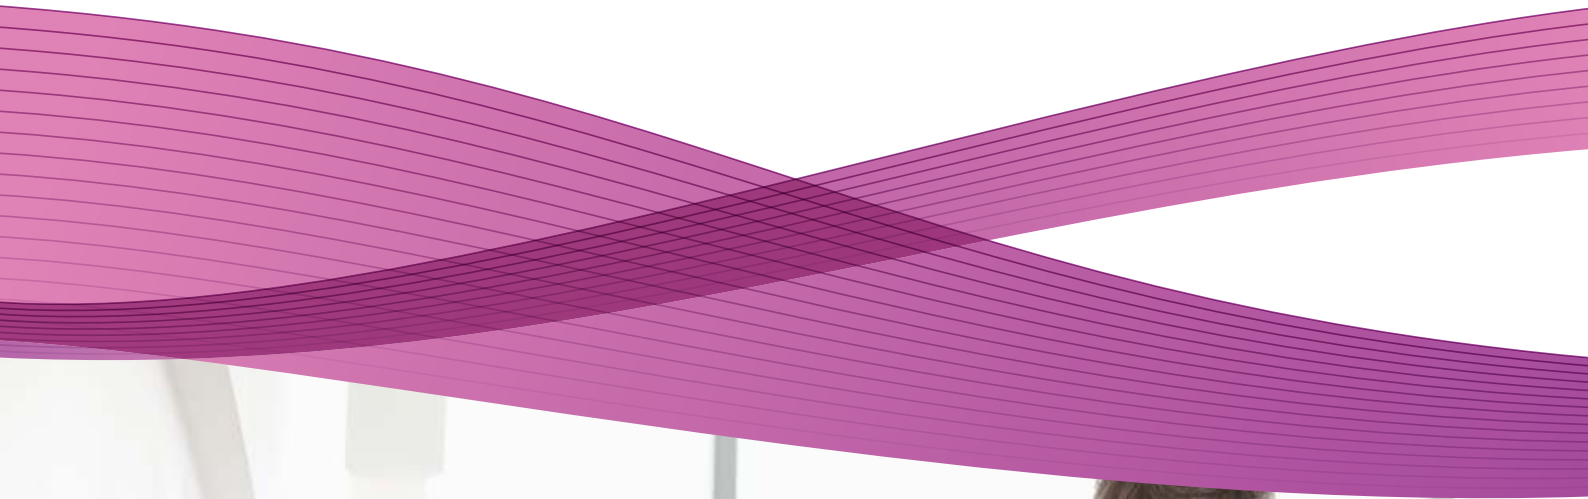

D95 / D110 / D125 Copier / Printer
High productivity designed for the real world

Print with speed,
in the way that works for you

Integrating a high-productivity print solution into your workplace shouldn't be difficult. Fast print speeds and high image quality don't need to come at the expense of the things that help make your workplace smarter or more efficient – things like clever scanning, device management and enterprise security.

The good thing is, with the D95/D110/D125 Copier/Printer, you don't have to compromise - you can have it all.

The D95/D110/D125 Copier/Printer was built with modern workplaces in mind. Combining high productivity printing and powerful document management features the D95/D110/D125 Copier/Printer is the perfect answer to unique business challenges:

Fast print speeds with a choice of up to 95, 110 or 125 A4 pages per minute (ppm)

High-performance colour scanning at blazing speeds of up to 200 A4 images per minute (ipm)

Advanced multifunction capabilities, including enterprise security, device management and intelligent scanning workflows

Intuitive and easy to use, helping walk-up users or everyday operators get the most our of their print solution.

A robust set of in-line finishing options, that automate repetitive tasks – helping you to reduce time and costs

Offering the choice of controllers to suit your environment - an integrated controller comes as standard. Or upgrade to the powerful FreeFlow Print Server, for businesses with complex document requirements.

Expanded device functionality with the modular Image Gateway for Apeos (IGA). Improve environmental management, connect to content management, manage device costs and much more.

Expand your capability with the powerful FreeFlow® Print Server

The optional FreeFlow® Print server gives you the flexibility to demand production-level capabilities out of the D95/D110/D125 Copier/Printer:

- Expand production-level management to take on variable data printing and other complex jobs
- Flexible job submission – submit from anywhere!
- Multiple queues and hot folders allow you to quickly and easily automate job workflows
- Remote job and administration task management
- Security features that can be customised to individuals or groups

Production printing designed for your working environment

For modern working environments, such as in-plants, schools, local councils and law firms, Fuji Xerox engineered the D95/D110/D125 Copier/Printer to excel at what's most important: increasing productivity while streamlining your complex business processes.

The D95/D110/D125 helps your business move forward, assisting print operators, office workers and teachers with their difficult jobs – with ease and flexibility – everyday.

Get more work done in less time

Time is money, and the D95/D110/D125 Copier/Printer helps you save both.

- **Get fast results.** Experience high-output performance with print speeds up to 95, 110 and 125 pages per minute, with first-page-out-time as fast as 3.5 seconds.

- **Scan and copy more, faster.** Single-pass, colour dual-head scanner scans at speeds of up to 200 images per minute.

- **Print without delay.** Concurrent scan/receive, RIP and print processing provide maximum throughput, especially with multiple users.

- **Keep the busiest workgroups productive.** Robust concurrent processing and massive 2GB system memory (integrated copy/print server)handle multiple complex jobs with ease.

- **Reduce network traffic.** Access scanned documents faster with advanced file compression techniques that dramatically shrink file sizes, reduce storage space requirements and cut down on document traffic on your network

Stay sophisticated the easy way

At the touch of a button, all users can print, copy, scan and fax documents with ease, giving you more time to focus on the tasks at hand.

- **Clear and Simple.** With a large, 10.4 inch full-colour touch screen, the user interface allows simple programming of sophisticated jobs, with intuitively located buttons.

- **No need to stop**. Load-while-run, unload-while-run and change-while-run capabilities mean you can load paper or unload finished documents while the copier/printer is running.

- **Quick replaceable part.** Improved toner housing catridges mean changing consumables is easy and can be done by any user.

Fuji Xerox-exclusive EA Toner technology plays an integral role in the D95/D110/D125 Copier/Printer's delivery of superior image-quality:

- Emulsion Aggregation (EA) Toner is chemically grown, resulting in the smallest, most uniformly shaped particles for razor-sharp line work.

- You get the highest levels of detailing, with the sharpest text and halftones, and deep, solid blacks.

- Longer photoconductor life and lower toner requirements per page further enhance the D95/D110/D125 Copier/Printer's contribution to environmental sustainability.

Take black and white to a whole new level

Whether printing is your business, or your work requires fine detail, the D95/D110/D125 Copier/Printer will help you impress with remarkable image quality.

- **Maximum impact.** 2400 x 2400 dpi print resolution delivers consistent, high-quality reproduction of text, solids, photos and graphics.

- **Add a touch of colour.** Colour scanning with 600 x 600 dpi and 8-bit grey (256 shades) scan resolution produces copy output that is a match with the original.

Powerful Document Management

Eliminate redundancies and maintain network efficiency with easy-to-use network management tools that let you access, manage and print documents anywhere on the network

- **Full range of scanning solutions.** Scan-to-Email quickly distributes documents to multiple email addresses. Store files on the device, or in a personal directory. You can also scan documents to network folders, FTP sites and fax servers right from the device.

- **Easy archiving, organising and searching.** Scanned documents can be easily transformed into searchable PDF's, with the touch of a button*.

* Optional Searchable PDF Kit is required

- **Scan to Folder.** Store documents on the printer's hard drive, for quick retrieval from the device or web interface.

- **Automate repetitive tasks.** Introduce new workflows within the office environment by automatically routing documents to predefined locations at the touch of a button. Intuitive job flow sheets allow distribution of a single scanned document to multiple destinations – email, folders, fax or print

- **Significantly smaller scan files.** The latest scan-export compression technologies reduce traffic on the network and accelerate document delivery.

Reliability your business can depend on

In this fast-paced world, you can't afford to take your eyes off your business. You need your printing solution to be running at it's optimum efficiency, 24 hours a day, 7 days a week. We understand this and we're here to help.

Online, on the phone, and on-site – our world-class support organisation is available, so that you're never left on your own.
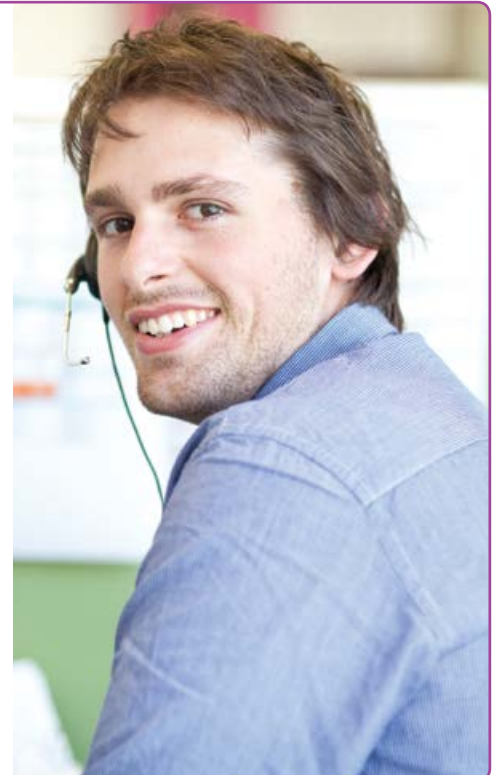

Online Support
Our comprehensive support website will provide your organisation with around-the-clock assistance in a fast, efficient and self-directed manner.
Simply visit www.fujixerox.com.au/support.

Telephone Support
Our Sydney based Customer Support Centre and Technical Support Centre, with highly trained Fuji Xerox representatives, are available to help you troubleshoot technical issues over the phone – helping you get up and running faster.
Call us on 1800 028 962.

On-site Support
When your problems require a greater level of assistance, our on-site field staff are available and fully equipped with the knowledge and tools to provide complete service for your Fuji Xerox solution, quickly and professionally.

Report and manage

Accountability is all part of good business.

CentreWare™ Internet Services

This powerful application simplifies your device monitoring and administration.

- **Work remotely.** Access your device by logging into CentreWare™ Internet Services and managing on-the-go.

- **Driverless printing for remote users**. Use the web utility to output PDF, TIFF and PRN files from any networked location, without the need to install drivers on your PC.

- **Administration made easy.** Configure the device to the way you need it, quickly and simply. Upload address books, monitor usage, keep an eye on consumables and establish auditing capabilities.

- **Clone configurations.** If you have multiple Copier/Printers in your workplace, easily copy settings from device-to-device.

Fuji Xerox Accounting

Understanding where your costs lie is imperative to running an efficient business.

- **Track device usage.** From a user, group or departmental level.

- **Separate by job.** Account for client-related printing (e.g., in legal or consultancy) and bill back to the client accordingly.

- **Allocate costs**. Account printing costs to internal departments or cost centres.

The D95/D110/D125 Copier/Printer helps you monitor device and user usage using a number of clever tools.

- **Auditron**. Sets limits of device features for analysis and billing purposes.

- **Xerox Standard Accounting**. Track and limit the number of copy, print, network scanning, email and fax jobs for each user.

- **Network Accounting (optional)**. Provides in-depth accounting information for copies, prints and scans using integrated solutions available from Fuji Xerox.

- **Support for Third Party (optional)**. Including popular accounting services such as Equitrac.

Totally Secured

The D95/D110/D125 helps you protect vulnerable access points and comply with the latest security standards

- **Prevent unauthorized access.** Powerful authentication features such as network authentication, smart cards, and role-based login helps ensure that only authorised users can access the device

- **Hard Disk Encryption.** Helps to protect your data from unauthorised access

- **Image Overwrite.** Clears all traces of document image data, by overwriting with dummy information

- **Password protection.** Secure Print helps to prevent unauthorised access to a user's documents, by releasing the job when the correct password has been entered into the device

- **PDF Security**. Ability to create password protected PDF documents on-the-fly

- **IPV6 Support.** Including enablement of new IPSec standards

Choice of print servers expands your capabilities.

Standard Integrated Copy/Print Server

You'll get a simple workflow with an easy-to-use touch screen, FreeFlow® integration, excellent features and a small footprint:

- **Superior scanning.** Create text-searchable files at the device for easy retrieval – compression technology reduces network load.

- **Remotely manage your device.** CentreWare® IS Embedded Web Server automates installation, troubleshooting feature set-up and upgrading.

- **Multiple Sets of Copies with Separators.** Make multiple collated or uncollated sets separated by slip sheets for efficient distribution.

- **USB direct printing.** Enable to print directly from a USB flash memory (optional).

- **Security.** A large set of security features is packed into one compact device. Standard Secure Print. Secure Watermark (optional). The latest network and security standards: IPv6/Ipsec/SNMP. V3/IEEE802.1 compliant. Standard Data encryption/overwrite.

Optional FreeFlow® Print Server

You'll get unmatched power and synergy across our entire black and white, colour and highlight colour portfolio on top of a superior feature set:

- **Process Speed and Capacity.** Simultaneously receive, RIP and print several jobs at once or one long streaming job.

- **Submit Jobs from Anywhere.** From desktop applications, host-based TCP/IP connections, the web, CD-ROMs, portable USB devices and optional FreeFlow Suite components.

- **Scalability.** You begin with production power and a familiar workflow at a great price; add only those feature licenses that you need.

- **Automated Job Ticketing and Customised Job Workflows.** Queues and hot folders let you streamline your workflow.

- **Print What You Want, When You Want and Where You Want.** Native acceptance of most transactional data streams, including IPDS, LCDS and VIPP.

- **Strong Security.** Provided via UNIX-based platform and flexible control to define settings for users and groups.

Integrated Copy/Print Server

FreeFlow® Print Server

Choose the perfect finish for your applications.

Create applications for your specific business needs or targeted toward a diverse range of industries with the D95/D110/D125 Copier/Printer. Its powerful media handling, feeding and finishing capabilities give you the flexibility to produce dynamic finished products – at your point of need – that meet your internal requirements, help reduce your costs, and drive better business your way.

Feeding and paper handling highlights:

- Increase productivity with uninterrupted long runs by adding an optional A4 size high capacity feeder, or a choice of A3 High Capacity Feeder or High Capacity Feeder C2-DS.

- Attract attention and maximise the impact of your high-value documents by adding full-colour covers or inserts (up to 200 sheets) via the standard post-process inserter.

- Use the bypass tray to run additional sizes and weights (up to 250 sheets).

Expand your capabilities with the D95/D110/D125 Copier/Printer's inline finishing options:

- Variable length stapling (up to 100 sheets) – 24 staple choices yield top-quality stapled sets.

- Hole punching – 2/4 – saves time and costs.

- The Interface Module acts as a "communications hub" whenever you elect to have more than one finisher connected to your copier/printer. It enables key functions such as media cooling, decurling and finisher module communications.

- GBC® AdvancedPunch™[1,2] offers a versatile range of punching styles so you can create documents in-house that are ready for professional binding. Easily blends printing, collating and punching to save time, maximize productivity and lower costs.

- The High Capacity Stacker[1,3] neatly stacks up to 5,000 A4-size sheets. A removable cart is included for easy transport and unloading.

- Bi-folding, C-folding, Z-folding and Engineering Z-folding (folded to fit into A4-size document sets) saves time and enhances your productivity.

- Booklet finishing options are ideal for large booklets and calendars – up to 25 sheets (100 imposed pages).

- SquareFold® Trimmer Module creases cover sheets and performs face trimming to ensure a professional finish. Create square-spine booklets that can be opened flat and are easy to handle, stack and store.

Integrate and streamline with Apeos Solutions

Working smarter may just be a matter of having the right tools. Without even knowing it, the things you do everyday may be taking you longer than they need, or might not be giving you the answers that you seek. There are solutions to these business dilemmas, and that's where Image Gateway for Apeos# comes in.

Australian businesses are unique. We work fast, expect innovation and are forever demanding more. So how do we squeeze more our of our days, without working longer?

Introducing Image Gateway for Apeos, designed and supported locally to help Australian businesses drive efficiencies the way they want.

IGA is a component-based software platform, designed to deliver solutions that streamline the way you work. Extending upon the fantastic device capabilities of the D95/D110/D125 Copier/Printer, the modular nature of IGA allows users to tailor a solution for their particular needs - choose from extensions that assist with cost control, scanning workflows and more.

Cost Management & Control

Provides business owners, department heads or IT with the ability to track device usage (Print/Copy/Scan/Fax) to Users, Departments, Cost Centres or Clients

- Allocate and control print related costs to users/departments and cost centres
- Secure release and Authentication of all Print, Copy, Scan and Fax jobs, via Card Identification or PIN

Rules and Routing

Send jobs to the right places – saving time, costs and resources – by applying business rules and routing behaviour to your print devices.

- Route print jobs from more expensive desktop or workgroup devices to your more cost-efficient, high-volume D95/D110/D125 Copier/Printer, or company print room
- Route large print jobs to your Print Room for professional finishing

Image and Data Capture

Improve upon the already great scanning capabilities of the D95/D110/D125 Copier/Printer. Output to file formats, such as Microsoft® Word, Excel and XPS.

Connect to Electronic Content Management (ECM)

Directly from the device, the user can scan directly into supported ECM, plus retrieve documents and print without the need for a PC.

- Live integration to Docushare, HP TRIM, Microsoft® SharePoint and Interwoven
- Preview and print files in 400+ file formats through the user interface

For more information on components of Image Gateway for Apeos, please visit the Fuji Xerox Australia website, at fujixerox.com.au

Available post-launch as an option (July 2012)

The right applications for your environment.

The D95/D110/D125 lets you do more. Develop innovative, business-streamlining applications now and in the future.

Education

Applications include teacher curriculum materials, workbooks, student reports, coursepacks and yearbooks.

- Create multiple collated or uncollated sets with slip sheets for classroom handouts; sets can be finished with hole-punch or staple.
- Send impressive looking documents to communicate with the student's parents.
- Fast copy speed and broad media capacity gives teachers and assistants more time in the classroom.
- Achieve better, more effective communications with full-colour scanning and scan-to-email capabilities.
- Scan-to-USB helps you take your work wherever you need to go.
- Create low cost memory books and insert colour where needed.

Legal, accounting and business associations

Applications include evidentiary, discovery and case management documents, schedules and newsletters.

- Built-in Bates Stamping lets you generate copies with customised 9-digit alphanumeric descriptors on each page.
- Communicate faster and more effectively via scan to email.
- Create both office publications and transactional print documents.

Quick, franchise or enterprise/in-house printers

Applications include complex jobs, manuals, collaterals, calendars, catalogues, newsletters and forms.

- Produce the high-quality output your customers demand.
- Meet aggressive turnaround times.
- Offer more applications and services, including professionally bound, lay-flat documents and neat square fold booklets.
- Offer personalisation using optional one-to-one software.
- Supports coated/extra-heavyweight media.

Data centre or service bureaus

Applications include statements, bills and schedules.

- The optional FreeFlow® Print Server delivers native transaction (IPDS/LCDS) publishing and personalised data stream printing support.
- High reliability ensures you meet tight deadlines.
- Create high-value, high-impact applications on the spot using colour insertion, personalisation and in-line finishing.

Office

Applications include newsletters, handouts, presentations, reports and correspondence.

- Ease-of-use ensures copying, scanning and printing are no-stress activities.
- Expansive media capacity, in-line hole-punch, stapling, folding and booklet-making options reduce labour and ensure consistent results.
- Security features protect your data and meet your corporate security standards.

D95/D110/D125 Copier/Printer

Print Engines

Xerographic Engine	

Print Speeds

95/110/125 ppm – A4	
56/69/78 ppm – B4	
50/55/62 ppm – A3	
34/34/34 ppm – SRA3	

First copy-out-time: D110/125: 3.5 seconds
D95: 4.2 seconds

Simplex or duplex printing

Up to 1200 x 1200 dpi RIP resolution and up to
2400 x 2400 dpi resolution with halftone screen

106 lpi (default) or 150 lpi (high quality mode)

Document Storage

Standard Integrated Copy/Print Server

80 GB Hard Disk Drive

Scanner/Document Handler

Colour Dual Head Scanner

Up to 200 ipm, simplex/duplex

250-sheet Duplex Automatic Document Feeder

Throughput sizes: A5 to A3

Throughput weights: Simplex or duplex: 38 to 200 gsm

Optical 600 x 600 dpi 8-bit Grey (256 shades) scan resolution

Scans in industry standard PDF, JPEG, TIFF, XDW or XPS

Scan to Folder, PC, e-Mail or USB (option)

Paper Handling

Stock weights and capacity:

Tray 1[1]: 1,100 sheets – A4

Tray 2[1]: 1,600 sheets – A4

Tray 3-4[1]: 550 sheets each – 140 x 182 mm (A5) to 330 x 488 mm (SRA3)

Tray 5 Bypass Tray: 250 sheets – 102 x 152 mm to 330 x 488 mm; 52 gsm to 253 gsm

Optional A4 High Capacity Feeder: 2 trays, 2,000 sheets each – A4; 52 to 216 gsm

Optional A3 High Capacity Feeder: 1 Tray Feeder; 2,000 sheets – B5 to SRA3; 64 to 253 gsm

Optional High Capacity Feeder C2-DS[2]: 2 Tray Feeders; 2,000 sheets in each tray– B5 to SRA3; 64 to 253 gsm

Coated Stocks: Refer to Customer Expectation Document for approved coated stocks

Finisher D4

AMulti-position stapling: single or dual 100-sheet variable length

2- and 4-hole punch

Stacker capacity: 3,000 sheets (80 gsm); Top tray: 500 sheets (80 gsm)

200-sheet interposer for pre-printed and full bleed sheets

Finisher D4 with Booklet Maker

Includes features of the Finisher D4, with a 2,000-sheet stacker tray plus:

Automatically creates booklets of up to 25 sheets (100 imaged sides with saddle stitching) – A4, B4, A3 and SRA3)

Optional D4 Folder

C-fold and Z-fold – A4

Print on inside or outside of folded paper

Folds A3 Z-fold for insertion into A4 document sets (Engineering Z-fold)

Available with Finisher D4 with or without Booklet Maker.

SquareFold Trimmer Module

Square fold up to 25 sheets (100 pages)

Face trim between 2 to 20 mm in 0.1 mm increments

Accepts paper sizes: 216 x 279 mm to 330 x 457 mm

Available with Finisher D4 with Booklet Maker only

[1] Capacity based on 52 gsm to 216 gsm
[2] Available with D110/D125 configurations only

Optional High Capacity Stacker with rollaway cart[2]

5,000-sheet offsetting output stack tray; B5 LEF to SRA3

500-sheet top tray and includes one rollaway cart; additional carts available

GBC® AdvancedPunch™[2]

Paper supported: A4 Long Edge Feed (297 mm) side only

80 to 216 gsm

Several customer replaceable Die Sets available

Data Security

Standard Secure Print

Password Protected PDF and XDW

Hard Disk Data Encryption and Overwrite

Authentication with LDAP/Kerberos/SMB

IPsec, 802.1X, SNMP v3 Ready

Electrical Requirements

Print Engine:

220 – 240 VAC, 65/50 Hz, 15A

KVA Rating: Max Power Consumption: 3.6kW

Agency Certification: ENERGY STAR® Compliance

Optional Feeding/Finishing:

Each module requires 100 – 240 VAC, 60/50 Hz power

Optional FreeFlow® Print Server

Hardware Specifications

Processor: 2.8 GHz Intel DUO E7400 CPU

Processor Type: 2 x Intel Xeon Processors

Hard drive: 1 x 250 GB

Memory: 4 GB

Operating System: Solaris® 10

Software/Vendor: FreeFlow Print Server

Ports: 6 x USB 2.0

10/100/1000 BaseT Ethernet Ports

Display: 19 in. screen

10/100 switch

Client and Remote Support

Choice of print drivers

Support for Fuji Xerox Global Print Driver®

Fuji Xerox fully featured print drivers

Windows® 2003 server/2008 server/XP/Vista/7 full-featured drivers

Macintosh® OS 10.4 or higher for drivers

Adobe® PostScript® Printer Descriptions (PPD)

HTTP and HTTPS browser submission support

Support of IPv4 and IPv6 (dual mode supported)

Options

VI Compose (VIPP® Interpreter)

LCDS and IPDS enablement

Network Environments/Protocols

TCP/IP, IPP AppleTalk®, IPP

DHCP

SNMP MIB II support for third-party

Customer Expectation Document (CED)
