# Ricoh Priport HQ7000

Printing that's as fast as it is cost-effective.

When you've got thousands of prints to produce, every penny counts. That's where the RICOH® Priport HQ7000 digital duplicator comes in. It produces good-quality prints and spot color at just fractions of a cent per page. And it's rugged, reliable and easy to operate—because no matter how economical the system, no one can afford downtime.

# FastSimpleDependable

## The easy high-speed solution.

Print speeds as high as 135 ppm, a first copy out speed of just 19 seconds, and an optional automatic document feeder means you can run your large jobs faster. And one-button master making, large interactive touch-screen, and intuitive prompts make high-volume production easier, too.

## Quality you can count on.

The Ricoh Priport HQ7000 delivers high-quality output. And the durable design and simplistic operation provide both time and cost savings day in and day out.

- Maximize efficiency and lower costs with a high-quality, 4,000-sheet long-life master.
- Minimize roller marks and stains dramatically with superior, fast-dry HQ ink chemistry and precise printing pressure.
- Create crisp, clean text from headlines to body copy and eliminate print-through with evenly percolated ink and sharp master holes.
- Produce precise registration for two-color jobs thanks to Ricoh exclusive dual-cylinder technology and highly accurate paper clamping system.

## Durability that goes the distance.

Print after print, the Priport HQ7000 delivers unsurpassed reliability.

- Maximize system life with fewer moving parts and unique "cold-process" technology.
- Minimize service requirements thanks to a 600,000 prints-per-month duty cycle.
- Reduce set-off using the innovative paper delivery tray with buffer fins that precisely align paper.
- Detect and correct jams, misfeeds and double feeds quickly and easily using Double Feed Detector and Paper Feed Retry functions.

## Built for budget-minded businesses.

The Ricoh Priport HQ7000 is the perfect printing solution for high-volume print runs.

- Significantly reduce your cost-per-copy to just fractions of a penny.
- Minimize wasted consumables with the Job Proofing function, which lets you check the job for accuracy before printing.
- Maximize longevity of master copies—up to 4,000 prints—with extra-durable master.

## Real-time management tools.

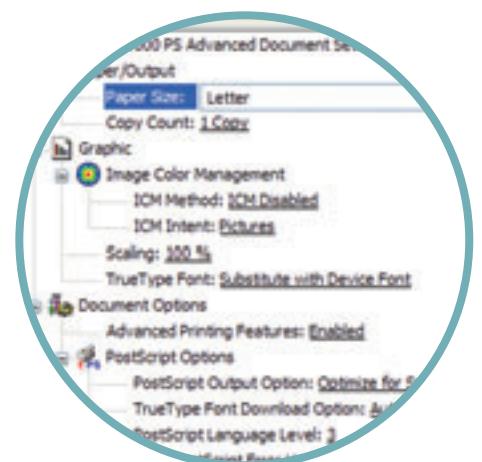

Time-saving software utilities help you make the most of your time, right from your desktop.

- Check the status or change print settings from your desktop with SmartDeviceMonitor™ or from any Web browser with Web Image Monitor™.
- Access, search, view, print and organize documents stored on the Priport HQ7000 hard drive regardless of the application they were created in and manage scanned images with Ricoh's DeskTopBinder™ Software.

Output a wide array of paper stock, including 11" x 17" stock, 8.5" x 11" letterhead, envelopes, NCR forms, card stock and 25% cotton Bond.

Simplify printing and set-up with the Ricoh icon-based Refined Print Command Stream (RPCS) page description language.

The Ricoh Priport HQ7000 connects easily with any standalone computer or networked operating system with the Optional PostScript® 3 interface.
